Growth of \$10,000 Investment at NAV with Dividends Reinvested – 10 Years ²

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. The Fund's current performance may be lower or higher than quoted. For the Fund's performance as of the most recent month end, please call 888-556-5369. Returns are historical and are calculated by determining the percentage change in the net asset value (NAV) with all income and capital gain distributions reinvested. Inception date for the Fund is April 1, 2008.

¹ Returns greater than one year are annualized.

⁴ The SEC Yield is a standardized annual yield based on the most recent 30-day period. It is calculated in accordance with current Securities and Exchange Commission regulations and is subject to change.

⁵ A measure of the volatility of a fund—based on the fund's last three years of annualized daily returns—used to indicate the dispersion of past returns. A higher standard deviation means a greater potential for volatility. If three years of data is not available, inception-to-date is used for the calculation.

Investment Process

The Fund employs a four-step process that combines dividend income style with relative risk controlled portfolio construction and values screening policies.

Values-Based Screening Methodology

The Fund applies a proprietary set of values screens to all of the investments. Screens applied to the portfolio management process allows investors to avoid owning securities in companies that choose to profit from businesses that are at odds with values-based investing.

Morningstar Rating™

Overall rating out of 729, 3 Year out of 729, 5 Year out of 618, 10 Year out of 360 World Large Stock funds as of 12/31/2018.

The Morningstar Rating™ for funds, or “star rating”, is calculated for funds with at least a three-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics.
