Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. The Fund's current performance may be lower or higher than quoted. For the Fund's performance as of the most recent month end, please call 888-556-5369. Returns are historical and are calculated by determining the percentage change in the net asset value (NAV) with all income and capital gain distributions reinvested. Inception date for the Fund is October 1, 2004.

¹ Total Assets Under Management all share classes.

² Returns greater than one year are annualized.

Crossmark Steward Large Cap Enhanced Index Fund Fact Sheet

Morningstar Rating™

★★★★★ OVERALL
★★★★ 3 YEAR

★★★★ 5 YEAR
★★★★★ 10 YEAR

Overall rating out of 1,196 Large Blend funds as of 9/30/2018.

Morningstar Sustainability Rating™

Out of 648 Large Blend funds as of 6/30/2018. Based on 98% of AUM.

Investment Process:

The Fund employs a three-step process that combines large cap style allocation with relative risk controlled portfolio construction and values screening policies:

- Determine the percentage of the Fund's assets that will be allocated to investments in both growth and value investment styles. These allocations will vary with market conditions.
- The large cap universe is screened in accordance with the Fund's values policies, and those companies failing to meet these criteria are removed. The pure growth and pure value style components are identified within the investment universe.
- By using optimization techniques, we construct a risk controlled portfolio that is designed to track the targeted style allocation.

Values-Based Screening Methodology:

The Fund applies a proprietary set of values screens to all of the investments. Screens applied to the portfolio management process allows investors to avoid owning securities in companies that choose to profit from businesses that are at odds with values-based investing.

Crossmark Steward Screens:

The Fund employs only avoidance screens and does not dilute the portfolio by seeking to invest in companies that promote any individual values or social issue.

This methodology gives the Fund the ability to serve a rapidly growing number of investors seeking competitive investment returns without compromising their personal convictions.

Screening Impact:

positive neutral **negative**

During the current quarter, the Steward Screens had a negative impact on the fund.

Our Firm:

This is not an offer to sell or a solicitation to buy Fund shares. Sales of Fund shares may only be made by prospectus. Before investing you should carefully consider the Fund's investment objectives, risks, charges and expenses. This and other information is in the prospectus, a copy of which may be obtained by calling Crossmark Distributors, Inc., the Distributor of the Steward Funds, Inc., at 800-262-6631. Please read the prospectus carefully before you invest.

The S&P 500 Index is a large capitalization weighted index of 500 U.S. companies generally considered to be representative of stock market activity. Please note that indexes do not take into account any fees and expenses of investing in the individual securities that they track and investors cannot invest directly in any index.

Risk Factors: The Fund may not achieve its stated investment objective. Please be aware that the Fund may be subject to certain additional risks such as Values Screening and Equity Market Risk. The Fund may not achieve the same level of performance as it would have without the application of the Values Screening policies. The value of equity securities will rise and fall in response to the activities of the companies that issued the securities, general market conditions and/or economic conditions. Please see the Fund's prospectus for a further explanation of these risks.

The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics.
